Establishing our legal name and putting restrictions on who can use them and enabling our party to be easily identified.

THE CONSTITUTION

These are Tomorrow's World Order written rules and laws that we will use to structure and manage the affairs of the political party.

TOMORROW'S WORLD ORDER

ARTICLE I

TWO- Victory

NAME OF THE PARTY

1. The name of this political organization shall be [Tomorrow's World Order] United Kingdom hereinafter referred to as the party. The party can be abbreviated as TWO [UK].
2. Our logo is a hand in a victory or TWO signs with the inside of the hand facing forward.
3. TWO [UK] is a constituent country-specific part of Tomorrow's World Order [Global] and is subject to its rules and constitution.
4. Our slogan is; Your Future Your Say.
5. The geographic area of TWO [UK] is in all England, Scotland, and Wales.

PREAMBLE

1. We as [Tomorrow's World Order]; We intend to register on the Great Britain register with the intention to contest elections in all England, Scotland, and Wales (Great Britain register).
2. I as the Party Leader [David Gomadza] declare that;
3. [Tomorrow's World Order] party intends to contest elections in UK parliamentary general elections in all England, Scotland, and Wales.

4. Through our constitution and the adopted Financial Scheme of [Tomorrow's World Order], the party has processes in place to comply with the rules that govern the election and financial activities of our party. See our constitution and the attached Financial Scheme that our party has adopted. In all our dealings within the United Kingdom and globally we confirm that our constitution and how Tomorrow's World Order as a party operates, adhere to all principles of full equality and comply with the Equality and Human Rights Commission rules, laws and regulations. For clarity, any reference to masculine in this constitution can be a reference to any; either feminine or masculine. We shall adopt an Affirmative Action policy: that makes us comply with gender and equality laws as such we shall adopt a 40:40:20 % rule. This means we shall aim to have an equal number of women and men in most of our organizations, committees, and branches. That means forty percent shall be women and forty percent men with twenty percent made up of either gender. We as Tomorrow World Order [UK] declare that as a political party to be established in the United Kingdom, we shall observe the rules and regulations in our conduct as a political party as stated in the Political Party, Election and Referendum Act 2000.
5. Our party TWO [UK] shall act fair and not favor people due to their religious beliefs, sex, race, education, other beliefs, ethnic origin, class, sexual orientation, etc. the list is not exhaustive.
6. We as TWO [UK] in conducting all our activities shall observe the requirements placed upon us by the United Kingdom of observing the rule of law, democracy, liberty and all human rights.

ARTICLE 2

PURPOSE AND OUR UNIQUE POLITICAL PHILOSOPHY

Origins.

1. Tomorrow's World Order arose out of the realization that mankind for the past 2000 years has been stuck in defensive stages of development where he can't afford to buy everything he needs and instead with the little he has designs and makes weapons which he then uses to get everything else he needs by force, through wars, invasions, assassinations, sanctions and all kinds of evil in the process killing innocent women and children the

- voiceless and defenseless of any society.
2. Yet there is a system that will increase individual, national and global wealth to levels never imagined before. A system that makes everyone afford to buy any resources at market value. Yes, a new system of governance and fiscal planning and management that will revolutionize global wealth and development.
 3. The fact that the current system is obsolete and not fit for purpose yet we still use it despite several financial crises with the 2008 being the last major one, global poverty, global debt above \$244 trillion, mediocre living standards for the past seventy years and stagnating economies with some developed nations falling back into developing nations. Poor fiscal planning and management everywhere when there is an answer. I aim to introduce a new system of governance and financial planning that will eliminate global country and individual debt. Increase wealth, raise living standards globally.

TWO- Victory

Functions and Objectives of the Party

- i. *The first aim and the objective of Tomorrow's World Order is to endorse our selected candidates to contest, win and take roles as the Prime Minister or President through the Parliamentary elections or Presidential elections and to participate in the general elections; to be selected for roles in the House of Commons, the Senate and the House of the Representations depending on the country in question.*
1. The aim of TWO [UK]
 2. Is to represent Tomorrow's World Order [global] in the United Kingdom that is in England, Scotland and Wales promoting its views and principles as in its constitution.
"The purpose of this organization shall be;
 3. To contest elections and win positions and seats in all elections and at all levels of the government and one day to win the leadership contest so that our political party will be the ruling party in the United Kingdom that is in England, Scotland and Wales.
 4. To write, develop, publicize and promote the views of Tomorrow's World Order [Global] in the United Kingdom that is in all England, Scotland and Wales and applying these on a national scale with the aim of taking

humanity to another level of development bringing in wealth to all mankind at levels never seen before through our policies, procedures and rules. We as a people have the potential to achieve great yet we are operating below our optimal levels.

5. We aim to change mankind's thinking of emphasizing austerity measures and show all mankind that growth is the only way nature intended. Prosperity to all mankind and not just to the few privileged ones.
6. To plan, organize, promote and take part in all peaceful activities within the United Kingdom.
7. To advance our agendas and gain the trust, support, and backing of all the people and convince all that only our policies are the way forward. We have heard and seen all current policies in play and we already know the disappointment and now it's time for change and change can only mean growth and levels of wealth for all never experienced before. We have the answers.
8. We aim to participate in all elections and referendums at all levels,
9. We aim to take all won seats and where there is ambiguity the party leader must decide. If still doubt exist, the national party leader can put the matter before the global leader of Tomorrow's World Order unless it is the same person in which case he has, or she has to decide therein.
10. The elected members to represent our party at all levels and advance our goals and objectives. The national party for that region here TWO [UK] will link and cooperate with the main branch TWO [Global] and with other local institutions, bodies or even other charities, etc. for the sake of carrying out its duties as in the constitution or where the leader sees fit.

Objectives of Tomorrow's World Order at National and Global Scale.

- a. To introduce a new system of governance both at a national and global scale that emphasizes the printing of new money as the only true source of growth and individual, national and global wealth.
- b. To shift the thinking from austerity: living within your means, to an emphasis on growth giving the people more power in decisions and policies that affect them.
- c. To bring to all mankind wealth levels never experienced before.
- d. To protect already accumulated wealth and put things in place to make sure that this wealth is passed on from generation to generation rather than be taken by the government or institutions or charities.

- e. To protect savings already accumulated and put things in place so that these savings often accumulated over the years won't be lost in a short period of time.
- f. To introduce a health plan that is free but fair where all citizens have to maintain a balance in their government-owned-yet-individual savings account above a certain level to qualify for free health, with the government using this savings account as collateral to offer free service. The government depending on circumstances can match the balance, double it, triple it or even multiple this tenfold in order to provide enough cover.
- g. To introduce a new government-backing of its citizens where it is indebted to its people where it bails-out the people instead of banks first, a system where governments are mandated to protect the wealth of its citizens and are proactive to cushion the wealth by providing loans, mortgages, etc. through the individual savings-yet-government held account. Instead of collecting taxes and national insurance from income and wages the government shall collect savings straight to the citizen's savings account which the government will use to assess eligibility levels for free health, loans, mortgages and pension support, the account remains in possession of the government until such a time when the individual reaches a certain age say 60 to have access to it and or if the contribution balance reaches a certain value e.g. \$10 000 for argument's sake then the person can have access to it.
- h. To abolish the taking of wealth of the deceased-without-relatives by the government,
- i. To ban donations of wealth especially by the elderly to government, institutions like hospitals and or charities. Wealth to be left to relatives only and even distant relatives rather than the government, institutions like hospitals and or charities.
- j. To abolish income tax payments and collection by the government.
- k. To ban payments of national insurance and collection of these by the government.
- l. To introduce instead a collection from the income of a single-digit-figure initially and opening of an individual savings-but government-owned account. An account that will be held by the government until a time when a person reached a certain age or the savings account balance reaches a certain amount before the person has access to it.
- m. This individual savings-yet government-held account's balance will act as collateral in order for the government to offer free health, loans, mortgages, etc.
- n. To advance and promote the printing of new money as the only true source of growth and wealth to a level never seen before.
- o. To introduce a new system to deal with hyperinflation and all issues

- associated with the printing of new money.
- p. To introduce a new system where all nations on earth must adopt our digital currency as the New Single Reserve Global Currency [NSRGC] in order to take humanity to levels never seen before.
 - q. To advance a system where all nations on earth will use two currencies as the base currencies namely their own sovereign national currency as the first currency and secondly adopt and use our digital currency FutureGoldCoin as the second base currency, even though nations can use more than two currencies these must be the two critical currencies to achieve growth and wealth to levels never experienced before.
 - r. To advance and lay a new system and framework of global governance where there is the rule of law, democracy, peace and wealth for all to new heights. A system adhered to by all simply because the system represents everyone and is for all; an effective system.
 - s. To introduce a new system of analyzing debt and dealing with individual, national and global debt and a new system of treating debt as having a depreciation value.
 - t. To introduce a new system that encourages individual, national and global savings, introducing the government-owned yet individual savings accounts, introducing Tomorrow's World Order Global Reserve Bank where all nations after printing new money have to deposit this new money in the Global Reserve Bank as savings which we will treat as collateral and offer them the equivalent of our universal global digital currency the FutureGoldCoin which they must use in their economy to achieve growth to new heights.
 - u. To introduce a new system that will take humanity to the next stage of development away from the defensive stage in which we are stuck in; where mankind makes weapons-cheaper and then uses the weapons to get the expensive resources like oil.
 - v. To introduce a new system that will increase affordability to levels high enough to buy any resources be it oil etc. at market prices instead of relying on weapons to fetch these.
 - w. To introduce new laws and regulations to offer peace and consolation to those who seek justice and on the other hand, introduce a new universal justice system that is fair and effective and feared by all, regardless.
 - x. To maintain individual differences in people and nations brought by mother nature recognizing this as everyone's right by not insisting or imposing changes but maintaining individualism as long as the differences are within the law. That means preserving the nation-specific difference strengthening the borders of each nation as desired as long as all are willing to abide by all international laws and our rules and regulations. Encouraging diversity.

- y. Above all, bringing peace to all mankind with the aim of networking and cooperating together on a global scale.
- z. To introduce a global leader who is not biased; a leader that represents all mankind and one who is for the people globally, one to lead all nations acting as an overseer and the guiding force with the aim of taking humanity out of the defensive stages where weapons and defense take center stage.

ARTICLE 3

We believe as Tomorrow's World Order that achieving the above goals and objectives will enable us to be able to;

- i. *Provide employment to all and making working worth it as income tax and national insurance will have been abolished. An extra savings account for everyone.*
- ii. *Will enable us to achieve income equality and distribute income fairly.*
- iii. *Make us be able to build brand new cities from stretch and provide the excellent infrastructure that meets today's standards.*
- iv. *Increase living standards.*
- v. *Protect the wealth and savings of everyone cushioning people against all kinds of crisis, therefore, improving living conditions and standards.*

Globally our objectives are to;

- a. To ban global wars, weapons manufacturing, possession, and trading.
 - b. To ban the killings of innocent women and children globally.
 - c. To ban sanctions that affect the voiceless, women and children.
 - d. This will enable us to introduce and put a system that guarantees human rights for all and freedoms in the process of improving the quality of life and living standards.
-
- 1. To achieve all this, we aim to appoint people who we will field-in in all democratic elections at all levels with the aim to win seats and office so that in the end our appointed and elected leaders become the rulers and leaders of the United Kingdom in all England, Scotland, and Wales and globally. Leaders from Tomorrow's World Order must bring wealth levels never experienced before, empower all and bring peace to all while improving life, quality of life and raising everyone's self-esteem to the levels never thought of the only way nature intended. Only Tomorrow's World Order has the answers.
 - 2. Rights of the Citizens
 - 3. We as Tomorrow's World Order strongly believe that affordability or its lack is the root of all problems regarding human rights abuse. Tackling the

- lack of affordability is the answer to a global that upholds the rule of law.
4. So even though human rights play a critical role to us our emphasis is in tackling the root cause and let our justice system bring law and order.
 5. This constitution might not deal a lot with the rights of people etc. we strongly believe that solving affordability will automatically bring the rule of law to all. We believe there is a strong causal-effect relationship nevertheless we shall address these rights here.
 6. The law gives everyone equal rights before it.
 7. Right to Life
 8. Everyone shall have the right to life which means right not to be killed needlessly. We have introduced new laws dealing with women and children killers through our laws.
 9. We have put new laws to ban wars globally.
 10. Now illegal to consider women and children as collateral damage. Wars and invasions that kill women and children will get the leaders who ordered these wars or commanded these to be dragged to court.
 11. Soldier's lives are now protected by our laws. It is illegal to send soldiers to war when chances of dying or be maimed are high.
 12. Our system has eliminated the reason for going to war. Every nation will be able to afford to buy any resources. All nations will have enough money to meet basic needs and cooperate with rebels.
 13. Sanctions are based on the scorched-earth-principles of starving into submission, therefore, are banned.
 14. We ban all sanctions that result in the deaths and suffering of women globally. Sanctions target women and children in order for the leaders to submit to the demands. We say no to such evil thinking.
 15. To deal with violators we have introduced the E-laws. Not to be confused with the Electric-laws. These are the Empathy Laws.
 16. They are not discrimination laws but laws that arise due to the fact that it is human nature not to relate to things we are not familiar with.
 17. Distance remote things are not close to us. Most people advocate for things that are close to them that they know and are familiar with.
 18. Since Tomorrow's World Order is a global political party, your enemies are protected by our laws that make you answerable to us. You can see now that there are no longer loopholes the main reason why now we banned wars. Any future wars will result in those involved facing our justice system fact.
 19. Everyone has rights to the best quality of life.
 20. Governments around the globe have greater responsibilities when it comes to quality of life. Some countries still practicing eugenics movements secretly loading their people with watermarks to protect them and

disfiguring others with viral-digital and bio watermarks to justify conserving their own. Some governments hacking everyone at birth with radiation-emitting devices as a population control and in the process lowering quality of life to medieval times with people looking like zombies etc. All violations of our laws.

21. All acts that violate the quality of life are banned by our constitution and laws.
22. We banned reliance on fossils and equipment, vehicles and infrastructure using these to be phased out. Pollution lowers quality of life. The constitution mandates the government to invest in research and development for cheaper cleaner alternatives.
23. We re to embark on new city development schemes from stretch to improve quality of life.
24. Rights to defend oneself.
25. Every person and country on earth has the right to defend itself. Depending on the threat at handsome countries and people can and might be justified in the use of force to defend itself. If the threat is formidable and if not doing anything can be regarded as unreasonable then the right to self-defend can be called upon and that person can seek international help. Gender Equality laws.
26. All people are equal regardless of gender and our constitution places requirements on all members to observe equality laws in carrying out all activities. During formation, the procedural rules must be considered, and equal representation be applied in all cases with the correct representation number to be adopted. Women have the same opportunities to the top jobs in the party.
27. Gender in candidate listing.
28. A system must be adopted and made into bylaws to ensure a certain number of candidates will be selected because they are women, so we have a representation that is just. Ideally, 50% must be women but a third is the working minimum guideline depending on the number sort.
29. Gender in the decision-making process.
30. In the decision-making committees and executives more must be done to include more women. Ideally, a large number must be women or 50% whichever is lower. Wars kill more women and children than men and we give women special privileges to be part of the decision-making process to help make policies that reduce their risks of being the victims of wars, sanctions, and invasions.

ARTICLE 4

MEMBERSHIP RIGHTS ROLE AND RESPONSIBILITIES

MEMBERSHIP REQUIREMENTS

- i. *This part deals with membership of the party.*
- ii. *In short, anyone can join as long as they agree to be governed by this constitution and our values and declare and promise that they believe and relate to our values and objectives. This part explains the roles of all members and what is expected of them.*
- iii. *As a general rule; members can resign in writing.*
- iv. *Membership can be revoked due to several factors e.g. disregarding the constitution and other laws and acting in competition with the party etc. details below.*
- v. *Non-payment cannot result in cessation of membership as a Membership Payment Buffer account is to be set to cover non-payments.*
- vi. *But non-payment for a year or more might make that membership be regarded as ended.*

Rules on membership of [Tomorrow's World Order]

- a. Minimum age 16;
- b. Putting things in place to ensure compliance with the constitution, bylaws and other laws. For the sake of membership and employment everyone who becomes our member, and those employed by us will be considered as having fully declared their willingness and express agreement to be governed by our constitution and our party rules.

- l. Membership starts when the correct fee has been paid and the person registered in the electronic or physical register.
- m. The members will be responsible for paying the annual membership fee to be decided at the first annual general meeting.
- n. The membership secretary is responsible for maintaining and keeping the membership list. The party leader or secretary can appoint the membership secretary.
- o. An active-member should not be;
- p. Someone who has not paid fees for more than 3 months, [but non-payment cannot lead to cessation of membership the Membership Buffer Fund is to be used to pay-off what that person owes],
- q. Someone who is facing disciplinary that can lead to expulsion,
- r. Someone who has joined another party that is way different from the values we stand for e.g. a party that is restrictive and or does not obey equality laws, etc.
- s. All members to have a registered email address or other electronic or physical form e.g. correspondence address in order to receive monthly updates and news about the party and to participate fully in all activities regarding the party TWO [UK].

The privileges and responsibilities of membership are;

- t. Members on merit can apply to be elected to certain party roles and join

- committees or put their names forward to be elected into different posts from the moment they join the part.
- u. But some jobs might where necessary insist that members be enrolled for a certain period and to have paid subscription fees for a certain period before taking certain roles like Party Leader and Secretary.
 - v. As a rule, 3 months with fully paid fees is enough for a member to be elected to certain posts. Six months with the party before being considered to take certain posts but again this shall be at the discretion of the Party Leader and the National Executive Power.
 - w. A special membership recruitment team can be temporarily appointed to drive the membership recruitment by recruiting members collecting membership details and banks account for subscriptions with the aim of making permanent members the new recruits. In all cases the code of conduct in this constitution and other bylaws to be observed at all times. We shall have different membership categories with executive members paying more than branch members etc. and any acts of dishonesty in dealing with the recruitment process and subscription can initiate the disciplinary process so as the withholding of funds for personal use which can be regarded as embezzlement. Everyone to follow our code of conduct at every time.
 - x. To take part in the campaign and attend all meetings and if elected to officers' roles to vote and participate fully in the activities of the organization.
 - y. To acknowledge that any member will abide by the constitution and our rules and to declare that they have no intention to act as in conflict with the party and what we stand for.
 - z. To pay up monthly subscription fees and where a person has not paid for a year and did not express the promise to pay will be regarded as ceased being a member.
 - aa. All members have duties to abide by the constitutions and our rules
 - bb. Any acts in conflict or contrary to what we stand for or competition with other members and the party will lead a member to disciplinary action.
 - cc. Members who have not settled their subscription accounts have no voting rights they are considered for the three months they haven't settled as dormant members and as such have no rights and powers to vote or be expected to choose new members but can take part in all other party activities. Unless they made other arrangements or promised to pay at a specific date which must not be more than 30 days ahead.
 - dd. Those abroad can form parties in the specific countries but members can have dual membership of the same party Tomorrow's World Order and that can stand as long as they pay membership fees in both parties but ideally must cease to be a member of one branch and shall be regarded as

transferred to the new branch.

- ee. If they pay membership to both branches the UK and Global branch in the UK if they live abroad shall be regarded as belonging to the Global branch but will have voting rights in the UK if they return even for short period.

Revocation of Membership.

- ff. Members can resign on their own but in writing to the membership secretary giving a two weeks' notice.
- gg. Membership may be revoked by Party leadership or any appointed party members delegated to do so due to;
 - hh. acting in conflict with the party rules and constitution,
 - ii. having breached our rules and regulations without any regard,
 - jj. and carrying out activities that compete with the party and constitution,
 - kk. and any disregard for the rules and laws of the country from the date the constitution comes into effect in that country, the list is not exhaustive.
- ll. The disciplinary policy means everyone must be heard as long as they appeal within four weeks and is entitled to a meeting where the party leader or the disciplinary committee or any appointed member can hear the case with the party leader informed and issuing the final decision. The individual concerned can choose to be accompanied by a friend or any member to be appointed by the party members responsible for the meeting. The person where the case is complicated can choose to appeal to the global leaders who will make the final decision. Their decision is final, and no further appeal is available after that. The leadership depending on circumstances can inform the person to rejoin after a certain period say minimum 3 months as long as the case was not very serious but the person if he or she had a party officer role and where there are issues of trust must not rejoin the management team but can be an ordinary member.

Creation of a Membership Buffer Account.

- a. A Membership Buffer Account must be set up where funds are kept into this account to cover for those who still want to be members but can't pay the membership.
- b. Such people need to send their names to the membership secretary.
- c. No one shall leave the party due to the failure to pay membership fees. Anyone who has not paid for membership for three months will have their memberships paid from this account automatically.
- d. But failure to pay for a year without pointing to financial difficulties can lead the membership secretary or committee to regard such a membership as ceased.

Types of membership

Founding members.

1. Have different statuses, rights and privileges and the subscription fees are slightly higher but can apply for roles without the qualifying period.
2. Are automatic members of the National and Ultimate Executive Power and votes at the National Congress. Can take up Parliament roles. It can represent the party globally and can choose to work in branches in other countries. Normally involved in strategic planning, contribution, etc. of the expansion's strategy.
3. They can be selected to be directors for the Tomorrow's World Order registered company governed by the Companies Act but may be asked to fortify any dividends as the company is a company limited by guarantee with no share capital as the company exists to provide a steady income for the political party.
4. Might be asked to donate to the Tomorrow's World Order Foundation, a non-profit company that accepts and seeks funds and donations which it will invest and then fund the Tomorrow's World Order political party. The donated amounts of money are fenced meaning remains with the Foundation.
5. Cannot receive grants or donations from the Tomorrow's World Order Foundation as they are directors or qualify to be directors.
6. We aim to help new rising political leaders among the party and the Foundation can sponsor or donate political funds for campaigning to be top leaders and as such no Founding members can be entitled to that sponsorship.
7. The articles of association of Tomorrow's World Order Party Foundation has a clause which is a law requirement that stipulates that no directors shall be entitled to dividends, any capital or profits.

Full Members

- a. Are general party members who have paid the subscription and can vote as long as they are regarded as active members.
- b. But have to wait and qualify first before taking roles and might not go for the top job etc. Normally need to be a full paying member for a minimum of 3 months to apply for administrative roles and 6 months to apply for party roles.
- c. Can't be directors of Tomorrow's World Order Party Foundation but

- might donate to the party Foundation.
- d. Might also qualify for the sponsorship or donation from the Foundation for political campaigns or career.
 - e. Associated Members
 - f. Some people become members in the sense because they are employed by us are not members in the sense, so they have no voting rights etc. Most are into administrative roles.

ARTICLE 5

FINANCIAL MANAGEMENT

- i. The survival of the political party depends to some extent on how we maintain our financial records. Credibility is important in politics. People especially party funder and donors need to have confidence so a proper system and standardized procedure must be in place.
- ii. Rules and places to be in place for accountability purposes.

TOMORROW'S WORLD ORDER FINANCIAL SCHEME

- i. *In order to meet the requirements of the Political Parties Electoral Referendum Act 2000 we have adopted the Financial Scheme in appendix detailing the required tasks and we shall rely on this Financial Scheme as having fulfilled the requirements of the Acts.*
- ii. *The appointment and assigning of the party Treasurer[David Gomadza] as the official person to be registered with the commission as the person responsible to meet the requirements of the Act and designating an office at the Headquarter and giving him powers to further appoint a Financial Committee to deal with all day to aspects means meeting the requirements if the PPERA.*

TOMORROW'S WORLD ORDER FINANCIAL SCHEME

- a. We have a detailed systematic standardized plan we adopted as a political party to organize the financial aspect of the party in order to systematically collect, record, monitor, audit, investigate, publish, and report our financial status to the relevant body as required by the Political Parties Electoral Referendum Act 2000. We shall use the standardization procedures in Article 7 assigning a role and an office at the Headquarters of the Treasurer [David Gomadza] who must register with the commission and who will be

responsible and accountable to make sure that we comply with the requirements of the PPERA.

- b. [Find attached ADOPTED FINANCIAL SCHEME IN APPENDIX ENCLOSED IN Article 26]
- c. The National Executive Power and the Party leader to appoint a Treasurer and assign task to meet compliance with the PPERA.
- d. He or she shall be responsible for adopting a standardized procedure to make sure things are in place to meet the requirements of the PPERA.
- e. He shall appoint a Financial Committee and task it with this task with him acting as the authorization authority see Article 7.
- f. A detailed workflow plan with roles and individuals, with deadlines written clearly on the chart with the plan approved by the Party Leader. Bylaws can be created to detail the process and standardize it.
- g. Clear calendar dates [1 January to 31 December] as financial year must be noted with everyone knowing when the political financial year start and ends. Reporting dates marked with an external audit from outside the committee responsible for inspecting before documents are sent. In addition to the duties and roles in the adopted Financial Scheme, the Treasurer shall record all financial transactions of income and expenditure detailing, donations, loans, contributions, expenses, etc. providing a detailed account or making sure that the elected committee shall comply with the auditing and authorizing.
- h. The Party Leader or members of the disciplinary committee can become proactive and audit in advance to check especially after first establishing the branch with drills to make sure the system and standardization process is fit for purpose. Failure to comply triggers the disciplinary process see Article 9.
- i. The Treasurer on approval by the Party leader and or the National Executive Power can appoint other accounting units if needing to make sure that the party complies with the requirements of the Act. Bylaws can be created using the party's procedure in this constitution.

ARTICLE 6

POLICY DEVELOPMENT

- i. This is one area critical and related to the voter's supporters and is able to

- influence voters and turn people towards the party.
- ii. Greater importance is therefore placed on the processes with everything standardized.
 - iii. A National Policy Committee must be established, and it is the duty of the National Executive Power to appoint one or facilitate its development.
 - iv. The global Ultimate Executive Power and the global Party leader can and must strategically plan and assign the National Executive Powers to establish the National Policy Committees.

National Policy Committee

TOMORROW'S WORLD ORDER'S ADOPTED FINANCIAL SCHEME

Financial scheme

[Tomorrow's World Order]

Introduction

This scheme sets out how [Tomorrow's World Order] ('the party') will organize its financial affairs to comply with the Political Parties, Elections and Referendums Act 2000 ('the Act').

Constitution

A copy of [Tomorrow's World Order]'s constitution, setting out our structure and organization, and how we take decisions about the management of the party, is attached to this scheme or has been provided separately to the Electoral Commission.

Accounting units

The [Tomorrow's Party Order] does not wish to register any separate accounting units with the Commission.¹

Organizations within the party

For the purpose of compliance with the Act, the financial affairs of any local branches or affiliated organizations of the party, whether currently existing or to be established in the future, will be wholly controlled by the party treasurer.

Financial year

The party's financial year will run from 1 January to 31 December.

¹ Please refer to sections 2.13 and 2.14 in our brief guide *Registering a political party*.

Role of the party treasurer

[David Gomadza], the registered treasurer of [Tomorrow's World Order] is responsible for the whole party's compliance with the requirements of the Act, including the following:

Annual accounts

The [Tomorrow's World Order] will submit our annual statement of accounts to the Commission by the required date, being 30 April of the year following the end of the financial year if both our expenditure and income are under £250,000 in that year, or 7 July of the year following the end of our financial year if either our expenditure or income exceeds £250,000 in that year. We understand that if our income or expenditure exceeds £250,000 our accounts must be submitted with an auditor's certificate.

In order to comply with this requirement, [David Gomadza] has:

put in place arrangements for ensuring that annual statements of accounts for the party are prepared, approved, audited where necessary and submitted to the Commission by the prescribed deadline for each register the party is on
put in place accounting processes capable of meeting the Act's accounting record keeping requirements and of any regulations made by the Commission about the format of statements of accounts

Donations and Loans (regulated transactions)

[Tomorrow's World Order] will report the donations and loans it receives each quarter to the Commission, for each of the registers it is registered on, within the following timescales:

quarter 1 (1 January – 31 March) by 30 April of that year
quarter 2 (1 April – 30 June) by 30 July of that year
quarter 3 (1 July – 30 September) by 30 October of that year
quarter 4 (1 October – 31 December) by 30 January of the following year

In order to comply with this requirement, [David Gomadza] will:

For donations:

record information for all donations of more than £500, including:

- amount or value of the donation
- full name of donor
- registered address of donor

- company registration number (if applicable)
- date on which the donation was received
- date on which the donation was accepted or returned
- information about the trust (if applicable)²
- check the permissibility of any donations over £500 within 30 days of receipt³
- ensure that impermissible or unidentifiable donations of more than £500 to the party are recorded as outlined above and returned to the sender or financial institution that transferred the money or, if that is not possible, surrendered to the Commission
- ensure that a submission of quarterly donation reports covering donations exceeding £7,500 (including aggregates of donations and regulated transactions) and any impermissible or anonymous donations of more than £500 is made to the Commission within the above timescales; submitting a nil return if there are no reportable donations⁴
- provide weekly donation reports to the Commission during UK Parliamentary election campaigns if we are contesting the election

We understand that if we submit four consecutive quarterly nil donation returns, we will then be exempt from submitting further quarterly returns in respect of donations until we receive a reportable donation.

We also understand that separate quarterly donation returns must be submitted if we appear on the Northern Ireland register of political parties.

For loans (regulated transactions):

- record information about all regulated transactions (loans, credit facilities, etc.) of more than £500, including:
 - value of the benefit of the transaction
 - name of all authorized participants
 - registered addresses of participants
 - company registration number (if applicable)
 - nature of the transaction
 - date agreement entered
 - the terms of the transaction

² More details can be found in our guidance documents by visiting our party's pages at:
<http://www.electoralcommission.org.uk/guidance/those-we-regulate/register-a-new-party>

³ See above.

⁴ See above.

ensure that the party does not enter into any regulated transactions over £500 with unauthorized participants

ensure that a submission of quarterly transaction reports covering transactions exceeding £7,500 (including aggregates of donations and regulated transactions) and any void transactions or transactions of more than £500 entered into with an unauthorized participant is made to the Commission within the prescribed timescales; submit a nil return if there are no reportable transactions

ensure weekly regulated transaction reports can be submitted during UK Parliamentary election periods if we are contesting the election

We understand that if the party has submitted four consecutive quarterly nil loan returns, we will then be exempt from submitting further quarterly returns until we enter into a reportable loan.

We also understand that separate quarterly loan returns must be submitted if we appear on the Northern Ireland register of political parties.

Campaign expenditure

The party will submit a campaign expenditure return if we have candidates contesting a UK Parliamentary election, European election, Scottish Parliamentary election, National Assembly of Wales election, or Northern Ireland Assembly election. The campaign expenditure return will be submitted within three months of the date of the election if our expenditure is less than £250,000 or within six months of the date of the election if our expenditure exceeds £250,000. We note that if our expenditure during the campaign exceeds £250,000 our return must be submitted with an auditor's certificate.

In order to ensure compliance with the legislation, [David Gomadza] will:

ensure that campaign expenditure and claims payments are duly authorized, received and paid on time and that all relevant receipts and invoices are kept put in place budgeting and monitoring arrangements to ensure that campaign expenditure is within the statutory limits

ensure the compilation, auditing (if necessary) and timely submission to the Commission of a campaign expenditure return within the statutory deadlines

Referendums

If the party participates in a referendum to which Part VII of the Act applies, [Tomorrow's World Order] will develop and put in place arrangements for

complying with the controls on referendum expenditure. We will do this by adapting our arrangements for the control of campaign expenditure.

Grants

[Tomorrow's World Order] will ensure that any grants from the Commission to the party are spent in accordance with the conditions of the grant imposed by the Commission. We agree to cooperate with any associated audit requirements specified by the Commission.

Changes to registered details

[Tomorrow's World Order] will ensure that the party's details that are registered with the Commission are kept up to date. We will inform the Commission of any changes to registered officers within 14 days of the change and any other changes within 28 days.

We will ensure that our RP8 annual confirmation of registered details and £25 fee are submitted to the Commission with the annual statement of accounts by 30 April of the following year (if our expenditure or income is less than £250,000) or by 7 July of the following year (if our expenditure or income exceeds £250,000).

We note that failure to submit our RP8 annual confirmation of registered details within the prescribed timescale will result in our statutory removal from the register of political parties. We understand that this would mean that the party would no longer be able to field candidates at elections under the party name.

Penalties and offenses

[Tomorrow's World Order] understands that the Commission may impose civil penalties on parties that fail to comply with their legal obligations, including failures to submit statutory returns on time. The party also understands that failure to comply with certain legal requirements of being a registered political party is a criminal offense.

Role of other party officers

Should the appointment of the registered party treasurer terminate for any reason, then the registered party leader will, until a new treasurer is appointed, be treated as the party treasurer and will be responsible for ensuring that the party complies with its legal obligations.

Should the treasurer whose appointment is terminated also be party leader, then the nominating officer will, until a new treasurer is appointed, be treated as the party treasurer.

Should the treasurer whose appointment is terminated also be party leader and nominating officer, then the other registered officer will, until a new treasurer is appointed, be treated as the party treasurer.

Promoting compliance with the Act

The Party will have processes in place to ensure compliance with its legal obligations. The registered treasurer, [David Gomadza], will ensure that the registered leader and all other officers and members of [Tomorrow's World Order] have sufficient knowledge of our financial obligations under the Act to ensure that the party as a whole complies with these obligations.

Amendments to the financial scheme

The registered treasurer, [David Gomadza], will ensure that any proposed amendments to this financial scheme are submitted to the Commission for approval.
